

# INVENTORY SEALS

Self-locking seals are a quick and permanent method of identifying both new and used machinery. These seals are embossed with your name and an identifying number, which eliminates the risk of the number becoming obliterated. Each number corresponds to a machine inventory card that is kept on file, providing quick and positive identification.

**SELF LOCKING** - The seal clicks closed instantly and effortlessly. No tools are required. Once it's snapped together, it can't be removed without cutting.

**PLASTIC SEALS** - This seal won't rust like metal seals! And there are no sharp edges or burrs to cut your hands no matter how many you use. Available in six colors: RED, GREEN, BLUE, BROWN, ORANGE, YELLOW, PINK, PURPLE, and GRAY.

**PRICES SUBJECT TO CHANGE!**
